The principals are both confident Simms looks upon Whittaker as one of the easiest men he has faced in a Whittaker believes he knows Simms' weakness and that he can find the knockout spot without trouble.

Here are statements from both men Those who are enclined to wager a bit on the outcome can form their opin lons from what the pugilists say them selves. Simms says: "I will win from Whittaker tonight and will do it in less than six rounds. His claim that he knows my style of fighting is all bosh. I am in splendid condition below weight and dead sure of defeat ing my opponent. I am glad that I succeeded in getting on this match as it will settle a long standing dispute."

> Contract Signed In Cleveland Saturday by Representatives.

A contract was signed in Cleveland Saturday that gives the Akron Peo ple's Telephone company service with Pittsburg and the East.

The Pittsburg and Allegheny Tele phone company, of Pittsburg, and the United States Telephone company, of Cleveland, signed the contract. It will give the Cuyahoga Telephone company, of Cleveland, and the Akron People's Telephone company, an outlet to the East and at the same time give the Pittsburg company the chance for Western business that it has needed. The contract is for ninety-nine years and is for an interchange of business between the two companies.

General Manager Maxine Reber, of the United States company, and Vice President Sidney H. Browne, of the Pittsburg company, are the officials who signed the traffic arrangement on behalf of their respective companies, y'ars.' and operations under the agreement will begin as soon as the connections between the lines of the two systems can be made, which will be soon, it is announced by the officials of the United States company.

The United States company now has ines in operation to the line between the States of Ohlo and Pennsylvania, and as soon as the Pittsburg company extends its line to connect with them the connection between the two sysbegun at once by the Pittsburg company. There has been talk in Pittsburg to the effect that the Eric Telephone company, which owns the Bell system in Cleveland, has bought the Pittsburg non-Bell interests represented in the present traffic agreement, but this is denied by the officials of the Pittsburg company,

"Some of the other people have been circulating rumors that there was to be a consolidation of the old company and the independent company in Cleveland," said Manager Mark Davis, of the Cuyahoga company, yesterday, but there is not a word of truth in the story. These statements are circulated probably with the intention of keeping people from making contracts with us on the ground that the systems would soon be consolidated, and that there was no necessity for using our telephones. The talk of consolidation is absurd. Our interests, as far as long distance business is concerned. are more extensive than those of the other company, and there has never gen any thought of a consolidation.

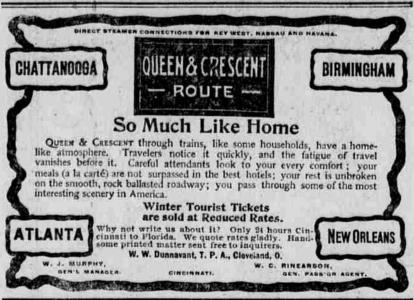

"By the traffic agreement that has just been made between the United States company and the Pittsburg company we will be able to give connections with the East. The Pittsburg company has lines to Baltimore, Wilmington. Philadelphia, Washington. we will be able to connect with those places under the new agreement. It will not take long for the Pittsburg company to build the lines necessary to connect them with our lines, which are already in operation to the State line, and as soon as this is done the through business will be possible."
